Dear Tony,

Dragon boat racing is a team sport. The result of months of training comes together on the day of the races. The same applies to having a successful festival that attracts teams from all over the province. Although there are months of planning before the event it all comes down to one day. Every detail and task is important and everything came together on August 8th at Riverside Park; good times, great volunteers, competitive races. None of this happens without the effort and support of so many people.

We write to thank you for your assistance at this year's festival. We particularly appreciate that you made yourself available on very short notice! We can tell you that we received many compliments about your services. The music you chose was certainly appropriate for the demographics of the dragon boat crews.

We had many compliments from the visiting teams and assurances that they are planning to come back again. Planning has already begun for next year's festival which will be on Saturday August 6, 2016. Once again there will be food, a beer garden, cars and live music as the festival will be held in conjunction with Ribfest and Hot Night in the City.

We would like to retain you for the 2016 festival. As discussed we will contact you shortly to discuss the arrangements for next year.

Thank you again for your assistance this year. We look forward to working with you next year.

Yours truly

Phil Maher
